

**PHILIPS**

Radiology

## Come and visit Philips at stand no. 3

### At our stand, you can:

- Try out Vital Eye, which uses patient sensing technology to help monitor the patient's breathing patterns and eliminates the need for uncomfortable respiratory belts.
- Talk with our experts about our Epiq Elite Ultrasound platform, which provides exceptional image quality and increased diagnostic confidence.
- Or maybe it's one of our other radiology solutions you are interested in? We are ready to welcome you with experts from CT, MR, DXR, IGT and AMI.

Don't miss the Philips symposium on **Thursday 30th January at 13.15** in Room Dania.

### ***"Recent developments in spine and musculoskeletal MRI"***

Ruud de Boer, PhD MR Clinical Scientist - Spine and MSK MR, Philips

**Mark the date in your diary. We hope you have a fantastic congress!**

innovation  you
